<tbody>
<tr>
<td>Scott Francisco is the founder of Pilot Projects Design Collective and is a practicing designer, cultural theorist and educator in New York City. His work amplifies the connection between the built environment and cultural systems, and explores how people use these “infrastructures” to communicate with one another and between generations.</td>
<td>Sara Matiz is a designer and creative professional with fifteen years experience in all aspects of the business from concept of design to marketing and business development. A graduate from IUAV – Istituto Universitario di Architettura Venezia, a LEED accredited professional she is passionate about introducing strategic design to clients such as Etsy, Mikimoto, Valli &amp; Valli, and New York Presbyterian Hospital.</td>
<td>Filippo Soave is a senior interior designer with fifteen years of experience in the planning, design, and construction of a range of interiors projects in the corporate + commercial + civic market sector. With Masters Degrees in both Architecture and Business, Filippo combines strong aesthetic skills with the ability to manage the design process and communicate creative concepts graphically and verbally.</td>
